

## ANNUAL GENERAL MEETING

Tuesday 25th March 2014

Starts promptly at 7.30 pm in the  
Offa's Dyke Centre, Knighton

Come and hear how KTAT is helping local landowners manage their woodlands and how you can benefit from volunteering with KTAT.

### WOODLAND MANAGEMENT - small scale with large results!

The brief AGM will be followed by a fascinating and informative talk by our special guest speaker **Phil Ward** of the **Radnorshire Wildlife Trust** about his interest in biodiversity and conservation in Woodland Management. Phil has over 25 years' experience in wildlife habitat management, wildlife survey and species recording.

The Knighton Tree Allotments Trust is a not-for profit company that engages in sustainable woodland management for the benefit of local people. We aim to protect and increase biodiversity and produce woodland products such as firewood and timber for our members.
